THE SILVER DEMOCRATS

Little Business Transacted at the First Day's Session.

VIRGINIA LEADS IN DELEGATES.

The Conference Not a Mass Convention, and Only Those Who Had Received Invitations Are Permitted to Take Part in the Deliberations.

WASHINGTON, Aug. 15.—The first session of the conference of silver Democrats at the Metropolitan hotel showed a larger attendance of sympathizers than had been counted upon. The leaders of the movement were anxious to correct the impression that it was intended the meeting should be a mass convention. They appeared to think this idea had been scattered broadcast by the gold men, with the view of making it appear that the meeting had been a failure. There were consequently numerous requests that the newspapers should make it clear that it never intended the gathering should be more than a conference among leaders of the silver sentiment in the Democratic party.

The meeting was called to order by Senator Harris, who moved that Senator Jones be called to the chair as temporary chairman, which motion carried unanimously. George M. Lecrone, of Illinois, was chosen secretary.

The meeting began behind closed doors with instructions to the doorkeepers to admit only those who had been invited, much to the regret of many who had expected to participate. When the roll was called representatives answered from twenty-two states, but names were given to the secretary from only nineteen. Virginia headed the list with 15 delegates, while Illinois and Missouri reported 14 each. Other states represented were: Alabama, 4; Ohio, 1; Georgia, 2; Indiana, 1; Delaware, 1; Maryland, 3; Kentucky, 1; Mississippi, 1; North Dakota, 1; West Virginia, 2; Arkansas, 3; Colorado, 8; South Carolina, 1; North Carolina, 8; Florida, 4; Tennessee, 4.

Senator Jones made a brief speech on taking the chair, confining himself to thanking the conference for the honor and expressing the hope that the proceedings would be harmonious and productive of good results.

Senator Daniel offered a resolution providing for the appointment by the chair of a committee to prepare a program and resolutions, which was carried. After the appointment of this committee the conference adjourned for two hours.

At 4 o'clock the committee on program and platform reported through Senator Daniel that it was unable to report, whereupon the conference decided to adjourn until today.

It is generally understood among the delegates that the important work of the conference is being done by the committee. When Senator Daniel reported to the full conference the committee had not authorized the draft of a platform, and none of the members was able to say when the report would be completed. The proceedings of the committee developed some difference of opinion as to the line of policy to be recommended, but these were not of a sufficiently radical nature to cause apprehension of serious delay.

The committee proceedings indicated that the report will recommend the issuance of an address to the Democratic party of the country urging in very strong terms the maintenance of the silver cause in the Democratic ranks and also outline a plan for the organization for the silver forces in the party, with a view to the selection of delegates to the next national convention. This plan will probably embrace the appointment of a central committee with a member from each state and territory, who shall in turn select a member from every county, the latter to have the power to appoint a member for every voting precinct in his county. The plan includes provision for national headquarters, probably in Washington.

A Letter from Ex-Consul Waller.

WASHINGTON, Aug. 15.—A letter just received from ex-Consul Waller by his stepson, P. H. Bray, says that his baggage was taken from him by the French on his arrival at Marseilles, and that he made a complaint to the United States consul at that place on April 27, but has heard nothing of it since. He has not yet received a word from Mrs Waller or his children since his departure from Madagascar, nor had he yet received the money sent him by friends in Iowa a few days after word reached this country that he was ill and without funds to supply himself with medical attendance. This was early in June.

Victims of the Brainbridge Bridge Wreck.

SPRINGFIELD, O., Aug.—Detective Reifsnyder has returned from the scene of the Ohio Southern bridge wreck at Brainbridge. He stated that divers had succeeded in locating the bodies of the three dead trainmen. All three were in the cab. Engineer Radcliff's body was brought up and sunk again to prevent decomposition. The bodies of Fireman Howser and Brakeman Byers cannot be extricated until the cab is cut away. There were fifteen young men aboard the train bound for the Chillicothe fair, and as only twelve of them have been accounted for it is supposed the remaining three were killed.

Victorious Defeats Dorian.

SARATOGA, Aug. 15.—Dorian, August Belmont's new purchase, failed to win the Rancocas stud stakes at one mile, notwithstanding that he was a 1 to 40 choice. Only two went to the post in this event, Dorian and Victorious. The former led by a small margin for three-quarters, and then, in a furious drive, Victorious crept up on the favorite. The excitement was intense, for they ran locked together up the stretch, Victorious winning by half a length. Time, 1.43.

The Search for Howard Pitezel.

ADRIAN, Mich., Aug. 15.—Two Philadelphia detectives are here working on a clew of the Pitezel murder. It is thought that the Pitezel boy was here on Oct. 5 last. The detectives made the rounds of the hotels, which developed little of interest in the case, except that on the date in question a page in the register at the Gibson house is torn out and missing.

Heavy Fines for Assaulting an Officer.

KANSAS CITY, Mo., Aug. 15.—Andy P. Foley, the ex-alderman, in whose saloon Officer Gallagher was assaulted on Sunday while endeavoring to arrest Foley's bartender for violating the Sunday closing order, was fined $1,000 yesterday. Philip McCreary, Foley's bartender, was also fined $1,000.

Serious Fireworks Accident.

THORNTON, Ind., Aug. 15.—A serious accident occurred here during a display of fireworks. Through the carelessness of some one the whole mass was ignited and many persons injured by the flying rockets. Mrs. Hamilton was badly injured. Ben Mullins, of Frankfort, was struck on the head by a rocket and seriously hurt. Lester Gray had his arm badly cut. Paul Rellis was seriously burned. Many others were more or less seriously burned and bruised

CONTEST OVER THE DEAD.

Religious Controversy Anent the Funeral of a Cincinnati Restaurateur.

CINCINNATI, Aug. 15.—A bitter agitation broke out here last night. R. E. Moorehead, aged 35 years, died yesterday at his home on Central avenue. He was a member of Washington council, in an order known as the American Flag. He affiliated with A. P. A. men, but could not belong to that order because his wife is a Catholic. Yesterday it was announced that Moorehead died a Catholic, and the family did not want Washington council or other local lodges of the American Flag to participate at the funeral. The lodges insisted on their usual service for members. Their request to be at the cathedral Saturday morning was also denied.

The members of the order held an indignation meeting last night at which it was publicly questioned whether Moorehead died a Catholic. Members of A. P. A. are taking part in the agitation. The cashier in Moorehead's restaurant is also a member of the American Flag. He said Moorehead was unconscious for some time before the priest was called to administer the last rites, and that he died unconscious. He also asserted that the family would not allow him or any other member of the order to see Moorehead after his condition became serious.

The priest who attended him is unable to say whether Moorehead was conscious or not, and stated that it is not a material point in his duty, as he was called by Mrs. Moorehead. The members of the American Flag and the A. P. A. are causing a great stir over the case.

Protecting Our Citizens in Germany.

WASHINGTON, Aug. 15.—The state department has received a dispatch from Secretary of Legation Jackson, charge d'affaires at the embassy of the United States at Berlin, giving a statement concerning the arrest of two American citizens, Fred and Ferdinand Kort. These men were born in Germany, and in 1888 came to the United States, being then 17 and 15 years old, respectively. They were naturalized at Chicago in 1894. Last September they made a visit to Germany. In March they were arrested and fined 160 marks for failure to perform military duty. The German authorities, upon an investigation undertaken at the instance of the American embassy, annulled the proceedings and ordered the return of the money.

The Speedy Steamer St. Louis.

SOUTHAMPTON, Aug. 15.—The American line steamer St. Louis arrived at this port at 2 o'clock yesterday afternoon, and has broken her best eastward record. The eastward Southampton record is 6 d., 10 h. and 53 min. The best eastward record made by the steamer New York is 6 d., 11 h. and 12 min. The steamer Paris made her best eastward run in 6 d., 16 h. and 43 min. The St. Louis is therefore 8 h. and 48 min. behind the best eastward record. After discharging her cargo the vessel will be prepared for her speed trial for the United States government mail contract, and her owners predict that she will lower the record.

All the Bodies Recovered.

NEW YORK, Aug. 15.—The work of searching the ruins of the collapsed Ireland building was discontinued permanently at 6 o'clock last evening. Every foot of ground within the walls of the building had been carefully gone over, and the contractor, the police and the representative of the building department agreed that no more bodies remained in the wreck. The task of clearing the street of the rubbish which has accumulated about the building will be begun at once and the first real attempt to fix the responsibility for the disaster will be instituted.

Treasurer of the Republican League.

CHICAGO, Aug. 15.—By unanimous vote the executive committee of the Republican National league, in session at the Great Northern hotel, chose Aaron J. Bliss, of Saginaw, Mich., as treasurer of the league and of the executive body. Reports from various state leagues were received. The outlook was declared promising, particularly in Iowa, Minnesota, Connecticut and New York. Senator John M. Thurston, General James S. Clarkson, W. W. Tracy and A. B. Humphrey were made advisory members of the executive committee.

American Schooner Yampa Defeated.

COWES, Isle of Wight, Aug. 15.—In a nice, whole sail, westerly breeze, yesterday, Mr. R. S. Palmer's crack American schooner-cruiser Yampa and Mr. Frederick Wills' English cruiser schooner Amphitrite started in a race for a prize of £100 over the queen's course. The distance was fifty miles, and Amphitrite won by 11 min. 12 secs. actual time, and by 18 min. 3 secs. counting her time allowance of 7 min. 41 secs., which Yampa allows her.

Threshing Machine Explosion Kills Three.

MORGANTOWN, W. Va., Aug. 15.—John Blair & Sons were threshing when the boiler of the machine exploded, killing three men and injuring four others. The killed are: John Spotsnage, Curtin Ammons and John Blair. Curtin Ammons was struck by a piece of the boiler and literally torn to pieces. His legs and feet were found under the barn. All of Blair's clothing was torn from him except his shoes.

Denouncing the Knights of Labor.

RICHMOND, Va., Aug. 15.—The Trade and Labor Council of this city has adopted resolutions condemning the Knights of Labor, saying that "said order is only kept alive for the purpose of waging warfare upon bona fide labor organizations, and of obstructing their progress," and declaring sympathy with and confidence in the Independent Order of Knights of Labor.

Many Workmen Drowned.

KIEL, Aug. 15.—A terrible accident occurred at the Germania shipbuilding yards. A number of workmen were returning across a gangway to the shore, after their work had been completed on a new cruiser, when the gangway broke, and all the men were thrown into the water. Twelve bodies have been recovered.

THE CUBAN REBELLION.

Conflicting Reports Concerning the Fight for Independence.

CAMPOS' POPULARITY IN HAVANA.

In a Private Conversation He Declared the Revolt Would be Crushed Before Spring, but There Is a Report That He Demands 100,000 More Troops.

HAVANA, Aug. 15.—Since his arrival here, Captain General Martinez de Campos has received deputations from all political parties. His personal popularity makes everybody glad to welcome him.

Addressing the Reformists he said that the revolution would probably develop further before the finale.

Addressing the Autonomists he said that it was his intention to begin an active campaign in September against the insurgents in the province of Santa Clara, afterwards to attack the rebels in Puerto Principe, and lastly those in Santiago de Cuba. He promised that the next municipal elections should be absolutely free, and that he would personally rectify any case of coercion reported to him.

In the course of a private conversation Marshal Campos expressed the opinion that dissension among the leaders would weaken the insurgent force, and that the rebellion would be crushed before spring, but there is a persistent rumor in circles usually well informed that he has cabled to Madrid that only two courses are open to Spain, namely: Either to send 100,000 troops to Cuba or to grant the island complete autonomy.

The report that the alcalde of Sancti Spiritu has joined the rebellion is incorrect.

The average number of deaths from yellow fever among the troops for the last few weeks has been 120 daily.

Jose Maceo has lived for the past three months on a coffee estate between Santiago de Cuba and Guantanamo. The government is aware of this, but does not attempt to attack him. The insurgents of this district levy fines from $500 to $1,000 on plantations. Maceo has been resupplied with ammunition from an unknown source.

Two Eloping Postmasters.

CHARLESTON, W. Va., Aug. 15.—Authorities here have been informed of two very similar departures by government officials. Mr. Walker, postmaster at Bee, Putnam county, eloped with Mrs. Stover, wife of a near neighbor. He left a wife and five children. Mrs. Stover is the mother of eight children. She took a 7-months-old baby with her. She is 31 years old and Walker is 36. He was one of the most prominent merchants in Putnam county. In the other case Albert J. Saulsbury, postmaster at Clay Court House, eloped with Mrs. Gross, each leaving small children. Saulsbury is reported short in his accounts by federal inspectors.

Forged the President's Signature.

WASHINGTON, Aug. 15.—Assistant District Attorney Taggart said today that it was quite likely the case of Captain George W. Streeter and his associates, charged with forging the names of President Cleveland and others to a government patent to 154 acres of made land on the north shore of Chicago, would be laid before the grand jury here this fall, although if conviction were secured in Chicago the cases here would not be pressed. The land involved is valued at $8,000,000, and as the forgery is alleged to have been committed here it is held trial can be had in Washington.

Illicit Liquor Sellers Raided.

BRIDGETON, N. J., Aug. 15.—A United States marshal had an exciting chase after a trio of illicit liquor sellers near this city. In company with an officer from this city he visited the "ranch" and arrested Charles, alias "Woody" Carll, George Dixon and Nellie Getsinger. The two latter were upstairs when the officers entered. The woman jumped out a second story window and hid in an outhouse, where she was afterwards found. The trio were taken to Camden.

Two More New York Strikes.

NEW YORK, Aug. 15.—Two new strikes were begun on the East Side yesterday. Local Assembly 155, K. of L., and the Pants Makers' Local assembly demanding contracts for one year instead of six months. Altogether there are something like 7,000 or 8,000 persons thrown out of work by the strike, but the leaders assert that it will last but a few days.

Vigilant Will Race Defender Again.

NEW YORK, Aug. 15.—E. A. Willard, who has charge of the Vigilant as the representative of Commodore George J. Gould, when seen by a reporter said: "The Vigilant will surely start in the trial races unless some serious accidents should happen to her. Just what sails she will use I cannot now say, but everything will be done to have her in perfect trim."

Ground to Pieces by a Train.

WILLIAMSPORT, Pa., Aug. 15.—An unknown man, about 25 years old, was ground to pieces by a freight train on the Philadelphia and Reading railroad. He attempted to board the train while it was moving and fell under the wheels, where he was cut in two. The remains have not been identified.

Father and Son Lynched.

ELLENSBURG, Wash., Aug. 15.—Samuel Vinson and his son Charles were taken out of the county jail by a mob early in the morning and hanged to a tree. The two men became involved in a saloon row last Sunday night and murdered Michael Konlopp and Joseph N. Bergman.

Mill Closed by a Strike.

IRON MOUNTAIN, Mich., Aug. 15.—Several hundred men employed in the mills of the Metropolitan Lumber company have struck for more wages, and the mills are idle. They are liable to remain so for some weeks.

THE MARYLAND REPUBLICANS.

Contest for the Gubernatorial Nomination Between Lowndes and Malster.

CAMBRIDGE, Md., Aug. 15.—The Republican state convention, which assembles here today, promises to be the most spirited gathering of the party in years. The capacity of this small town will be taxed to its utmost to accommodate the crowd, and tents, river boats, etc., are being utilized as impromptu hotels. The convention assembles at noon, but it is expected that a sharp struggle between at least three contesting delegations will defer the nominations for governor, attorney general and comptroller and agreement on platform until late in the day.

The friends of Lloyd Lowndes claim that he will be nominated for the governorship on the first ballot, with plenty of votes to spare. The opposition to Lowndes centers around William T. Malster, and the contest is becoming very bitter and somewhat personal. The Malster men are still hopeful of winning, although the general feeling is that the Lowndes forces have the convention well in hand. Little general interest attaches to the contest for the other places on the ticket.

Aside from the gubernatorial contest the main interest attaches to the platform. The leaders say there will be a strong and unqualified expression of the sound money idea in national finance. It is the purpose also of making a personal arraignment of the alleged influence exerted by Senator Gorman in shaping the recent nomination of John E. Hurst for governor on the Democratic ticket. The rest of the platform will be devoted mainly to state issues, the main one being a reassessment of all property values throughout the state.

Titus Makes a New Ten Mile Record.

NEW YORK, Aug. 15.—The most notable achievement yesterday at the Manhattan Beach cycling events was the smashing of the ten mile bicycle record by Fred Titus. He started out on a ten mile match race with Harry Maddox, holder of the record of 21.30 1-5. Titus got behind the quad at the start, and this so discouraged Maddox that he dropped back a lap behind before the second mile was finished. At the end of the third mile Maddox dropped out. Titus then turned his attention to the record, and he fractured every mile after the first. It was originally intended to pace the mile with two quads, but one of them broke down and two tandems were pressed into the service. The pacing was not fast enough for Titus, who on the last mile cut the pace for the tandem. He finished by knocking the record to 20.58 4-5, a cut of 40 4-5 seconds. Had there been another quad to pace Titus would have done much better. Pugilist James J. Corbett defeated Harry Wheeler in a half mile race.

Two Killed by a Locomotive.

NORRISTOWN, Pa., Aug. 15.—Thomas Hovenden, the artist, and Bessie Piefer, a 10-year-old girl, were instantly killed by a train at the grade crossing of the Trenton cut off at the Germantown pike last night. Hovenden, who lived in Plymouth township, was returning to his home from Norristown on the trolley line of the Chestnut Hill and Norristown road. At the cut off the trolley cars are not permitted to cross the tracks, and passengers are obliged to change cars and cross on foot. As Mr. Hovendon was doing so he saw the little girl on the track and a train approaching. He seized the child and pulled her on to the other track, where a light engine dashed along and killed both.

Fatal Explosion in a Paper Mill.

ALBANY, N. Y., Aug. 15.—By the explosion of a large boiler in the paper mill and postal card manufactory of Woolworth & Co., at Castleton, ten miles from here, James Lawton, watchman, was killed and the engineer so badly injured that it is believed he will die.

A Murderous Colored Youth.

CLEVELAND, Aug. 15.—As a result of a quarrel Charles Jackson, a 10-year-old colored boy, pounded George Quimby, also colored and the same age, over the head with a sharp edged brick. Quimby's skull was fractured, and he will die.

Tramps Attack a Train Crew.

TIFFIN, O., Aug. 15.—At midnight about fifteen tramps who were stealing a ride on a Big Four freight train attacked the train crew with stones and revolvers when an attempt was made to put them off. Eight shots were fired by the tramps, one of them cutting the coat of a state militiaman who was on the train and came to the aid of the crew. The appearance of the uniformed soldier caused the tramps to take to the woods.

Disastrous Fire in a Tennessee Village.

CHATTANOOGA, Tenn., Aug. 15.—A special to The News says that the entire business part of the village of Pikeville was destroyed by fire. Only one store is left standing. The conflagration is supposed to be of incendiary origin. Total losses foot up $35,000. Only $500 insurance was carried on any of the property destroyed.

Youthful Bather Drowned.

WILMINGTON, Del., Aug. 15.—Elzie Richardson, a 10-year-old boy, was drowned in the Brandywine here while bathing. Charles Gordon, a companion, went to his assistance and was dragged down by the drowning lad, but was rescued in time to save his life.

NUGGETS OF NEWS.

Myron McHenry, owner of John R. Gentry, issues a $5,000 challenge to any pacer in the world.

George Roby, a 21-year-old Chicago theosophy enthusiast, drowned himself to see if there was anything beyond.

A plot to murder the chief warden of the Toulon (France) maritime prison was unearthed by the prison officials.

Frank Sweet, a Chicago janitor, fatally shot Mrs. Alice Burr and then committed suicide last night. Cause, jealousy.

The exploding boiler of a threshing engine near Oakland, I. T., killed Will Craft, Leon Wood and "Pinkey" Wood.

The queen's speech was read in the British house of commons today. It is briefer, more formal and more devoid of novelty than usual. It does not promise any specific bills.

A CONFLICT AVERTED

In the Omaha Police Commission Controversy.

THE SUPREME COURT TO DECIDE.

The Contesting Bodies Come Together and Decide to Prevent a Resort to Arms by a Final Appeal, Though Both Claim to be Legal.

OMAHA, Aug. 15.—All probability of resort to arms to settle the municipal muddle over the rival police commissions is now very remote, but for two hours yesterday it looked very much as though a serious collision was inevitable. The sidewalks and streets surrounding the city hall were crowded with people, and the interior of the building was crowded with sheriffs and officers. The American Protective association commission convened at 10 a. m. in this city, amid considerable excitement. The members were encouraged with cheers from 200 A. P. A.'s present. They were expected to at once place a rival police force on the streets of the city, attempt to oust Chief of Police White and storm the city jail.

This was the schedule as given by the A. P. A.'s pretending to be on the inside. The situation was intensified by the report from Kansas City that the A. P. A. councils had 5,000 armed men ready to send to Omaha to maintain the A. P. A. commission. At the same time the old commission was in the mayor's office, ready to issue orders to repel any force necessary to maintain its position.

After a brief conference the A. P. A. committee concluded to confer with the old board before resorting to arms. The conference was the result of a letter which Mayor Bemis sent to the A. P. A. board Thursday night, asking the members to meet the old board and endeavor to reach a peaceable settlement of the controversy. The members of the new board replied that they had decided to meet Mayor Bemis and his colleagues, and the mayor replied that they were ready. The two boards remained closeted for an hour or more. When the door was opened it was announced that an agreement had been reached. Mayor Bemis then sent a telegram, signed by himself as chairman of the old board, and by W. J. Broatch as chairman of the new board, to Governor Holcomb and A. S. Churchill, attorney general:

"If the supreme court will meet at an early date all the members of the two boards of fire and police commissioners will unite in a request for an early hearing. Can you get the court to fix a short date? Answer."

This telegram was sent to each of the justices of the supreme court:

"All parties agree to submit the police matter to supreme court if early hearing can be had."

This was also signed by the chairman of each board. They wanted it understood that neither board had made any concession. Each side stood as it stood before, and in that respect there was no change in the situation. They had simply agreed that the best interest of all concerned would be served by submitting the case to the court. When Mr. Kandervoort was asked whether members would proceed to organize a police force in opposition to that controlled by the old board, he would not answer directly, but stated that neither board was going to be very strict on the other while the matter was pending before the supreme court.

Chief Justice Novel, of the supreme court, announced late last night that a special session of the court would be held this afternoon to settle the case.

A Powerful New Explosive.

WELLSBORO, Pa., Aug. 15.—An exhibition of the new high explosive and gun shells invented by George M. Hathaway was given here yesterday before a party of fifty experts and capitalists. The shells were fired from a Winchester repeating rifle, with gunpowder as the propelling force, and they exploded like bombs with a time fuse, at a distance of 400 and 500 yards. The force was terrific, but the shells were safe from explosion by concussion. The new explosive can be handled with as much safety as cornmeal, which it much resembles in appearance, but its force is 5 per cent. more powerful than the highest grade of dynamite. The shells are to be manufactured on a large scale, and their introduction will, it is thought, mark a new era in warfare.

Five Years for Ex-State Treasurer Taylor.

PIERRE, S. D., Aug. 15.—Ex-State Treasurer W. W. Taylor was sentenced yesterday by Judge Gaffy. When asked if he had anything to say why sentence should not be pronounced on him, Taylor in a low voice replied: "I have not." Judge Gaffy then reviewed the case and the different statutes bearing upon the crime. He considered the much discussed section 1,065 void, and did not believe a two year's sentence was intended to cover such a case as this. He considered that Taylor's worst crime was in attempting to force a compromise after gathering together all state funds he could lay his hands on. The extreme sentence, five years at hard labor in the Sioux Falls penitentiary, was then pronounced.

A Respite for Mrs. Nobles.

ATLANTA, Aug. 15.—Governor Atkinson yesterday granted a respite until Oct. 18 to Mrs. Nobles, a white woman, and Gus Fambles, a negro man, sentenced to be hanged at Jeffersonville tomorrow for the murder of William Nobles, the husband of the condemned woman. Pending the respite motions for a new trial will be heard in each case.

A Speedy Two-Year-Old.

INDIANAPOLIS, Aug. 15.—Three thousand people attended the races yesterday. The track was in excellent condition, and everything was favorable to fast time. In the 2.50 trot, for 2-year-olds, Wiggins showed himself to be a wonder of the year by winning in 2.21½. The colt is looked upon as a coming phenomenal.

AS THE ROMANS SAW IT.

A Classic Performance In the Old Theater at Orange.

Of scenery, in the ordinary sense of the word, there was none at all. What we saw was the real thing. In the opening scene of "Œdipus," the king, coming forward through the royal portal and across the raised platform in the rear of the stage, did literally "enter from the palace" and did "descend the palace steps" to the "public place" where Creon and the priests awaited him. It was a direct reversal of the ordinary effect in the ordinary theater, where the play loses in realism because a current of necessarily appreciated but purposely rejected antagonistic fact underruns the conventional illusion and compels us to perceive that the palace is but painted canvas, and even on the largest stage only four or five times as high as the prince. The palace at Orange, towering up as though it would touch the very heavens and obviously of veritable stone, was a most peremptory reality.

The fortuitous accessory of the trees growing close beside the stage added to the outdoor effect still another very vivid touch of realism, and this was heightened by the swaying of the branches, and by the gracious motion of the draperies, under the fitful pressure of the strong gusts of wind. Indeed the mistral took a very telling part in the performance. Players less perfect in their art would have been disconcerted by it, but these of the Comedie Francaise were quick to perceive and to utilize its artistic possibilities. In the very midst of the solemn denunciation of Œdipus by Tiresias, the long white beard of the blind prophet suddenly was blown upward so that his face was hidden and his utterance choked by it, and the momentary pause, while he raised his hand slowly, and calmly freed his face from this chance covering, made a dramatic break in his discourse, and added to it a naturalness which vividly intensified its solemn import. In like manner the final entry of Œdipus, coming from the palace after blinding himself, was made thrillingly real. For a moment, as he came upon the stage, the horror which he had wrought upon himself — his ghastly eyesockets, his blood stained face—was visible, and then a gust of wind lifted his mantle and flung it about his head so that all was concealed, and an exquisite pity for him was aroused—while he struggled painfully to rid himself of the incumbrance—by the imposition of this petty annoyance upon his mortal agony of body and of soul.—"The Comedie Francaise at Orange," by Thomas A. Janvier, in Century.

SEVEN HANDED EUCHRE.

Definite Points Given That Will Enable One to Play the Game.

For pleasure, pure and simple, seven handed euchre clubs may be cited as models. The game is played with a full pack of cards, and the joker is used. Seven cards are dealt to each player, giving first three and then four and leaving four on the table. This quartet is dubbed "the widow."

The player on the left of the dealer makes the first bid of 2, 3, 4, 5, 6 or 7 tricks, naming the suit, the highest bid getting it. The bidding is done in turn. The person who secures the bid then selects three other players—partners—thus pitting four against three. If the bidder wins, he and his partners each count the amount bid. If he fails, he is euchred, and the three opponents count each the amount bid. While one can play a quiet, steady game, taking no risks, and holding high cards or the joker play for a euchre, the spirit of extreme feminine politeness engendered by this fad of the hour requires that a person holding the joker should bid the limit, seven, thereby always introducing an element of chance in the contest and giving each one more show.

Prizes are played for. A certain number of points gained can be the limit or a given period of time as agreed upon. The one holding the highest number of points at the decisive moment wins.—Philadelphia Press.

Housekeeping at Samoa.

Mrs. Robert Louis Stevenson says that housekeeping in Samoa was not so idyllic as it might seem. Her supplies came from New Zealand or Australia once a month, so that if she wanted a bottle of bluing or a bag of flour, for instance, she had to send half across the Pacific to get it. The native diet was all well enough for a few weeks, but as it consisted almost solely of fruit and fish it began to pall on European palates. Housekeeping in this South Sea paradise (of romance) had other drawbacks, particularly in the matter of expense, which was fully six or seven times as great, Mrs. Stevenson says, as living on a corresponding scale in San Francisco. As for society, "there's more of it to the square inch in Samoa than in any other place I know," says Mrs. Stevenson, but it appears to be largely of the living picture kind.

LA BELLE DAME SANS MERCI.

My love is young, my love is fair,
Sweet, true and amiable is she,
With turkis eyes and topaz hair—
Alas, my love is lost to me!

Her no crusades nor cranks confound,
Nor Ibsenitish problems vex;
She has no theories to propound—
I've never heard her mention sex.

She doesn't smile on risque mots;
Her taste in dress is quite divine;
She's half an angel, goodness knows,
But, ah, she never can be mine.

I knew she painted tambourines
And pickle jars and copper bells,
With flowers and storks and river scenes
And moonlight views on scallop shells.

She's painted photo frames galore—
Wood, velvet, ivorine and brass;
She paints the panels of the door;
She has not spared the looking glass.

The plush framed plaques upon her wall,
Her limp art muslins everywhere,
The floral drain pipe in her hall—
They know the pangs I've had to bear.

And now the Rubicon is passed,
The great abyss between us set,
The final blow has fall'n at last—
I've said goodby to Amoret.

Goodby to bliss that might have been,
Goodby to happy hopes that were—

HER WEDDING PRESENT.

Marie Was No Doubt as Much Surprised as Freddie Was.

Young Mr. Smithers, having eaten an excellent dinner, sat down to smoke a good cigar while his wife ran up stairs to make her toilet for the theater.

So peaceful was his state of mind that he did not even look accusingly at his watch when, after the promised "minute" had developed into 60, she entered the room.

"Seems to me that you are looking very nice tonight, my dear," he remarked.

"I am so glad you think so, darling. Of course I care more for your admiration than that of any one else. Besides the Skinners sit right behind us this evening, and this dress will give her a bad headache before the second act is over."

Mr. Smithers looked anxious. "So that is new, is it? Wasn't the old one good enough?"

"N-not quite, dear. Besides I earned the money for this one myself."

"But how did you earn"—

"Oh, after you left I fell to thinking what a lot of money $25 was to spend on a wedding present for Marie when I really needed so many things. Then an idea struck me. I remembered all those pretty things I found in your big trunk after we were married—the ones that horrid girl, whoever she was, sent back when the engagement was broken. I wouldn't have one of them myself, but it seemed a pity for them to lie there, so I went up stairs and looked them all over. I selected that lovely silver backed mirror and cleaned it up until it looked just like new, and then I"—

"Sold it to buy the dress? I see!"

"Nothing of the kind. I bought the dress with the money you gave me. The mirror I sent to Marie with our best wishes. Won't she be surprised, and—why, Freddie, are you ill?"

"Not at all, my dear! You are quite right. Marie will no doubt be much surprised, for, you see, she herself was the girl who returned those presents; that is all!"—Baltimore Herald.

A Polar City.

Numbers of explorers who have sought the arctic regions in quest of the pole have told of a mysterious city mirrored against the northern sky—stately buildings in choice architecture, tall and imposing spires, but such as differ from anything we know about. Whether the foundation of this mirage is a reality and only unrecognizable because of transposition as to directions, whether it is a work of some mysterious remnant of our race that once occupied the pole, or whether this is some fanciful feature of the frost, as the peculiar shrubbery we see on the window pane—whatever this is, it must be consigned to the perplexing enigmas of the unknown region. Who knows but some spot, once the theater of busy and advanced human life, may have escaped the general cataclysmal wreck, and this city may be the silent and as yet undiscovered witness of prepolar times, standing alone in the dead desolation, in the rigid shroud of now polar death. If we must be barred from entering this undiscovered country, we may add to our equipment by a careful noting of its mixture, and then give to the base of these phenomena a most thorough study.—Philadelphia Press.

Gentlemen:—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m., stopping only for meals

On Monday, February 4th, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed, and on the tenth day the desire for tobacco had left me and it has not returned. I did not lose a meal while taking the Cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully,
CHAS. I. LINCOLN

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

WALL STREET.

If some of the people we are acquainted with had bought Building Lots on Richmond Hill instead of stocks in Wall street, they would have been better off in this world's goods than they are now. There are a number of good things we might say in this connection. Real Estate in the form of Lots in

RICHMOND HILL

is a particularly desirable investment. No one can "bull" or "bear" the market. The principal is always safe at any rate.

THIS STOCK IN BUILDING LOTS

simply keeps on increasing in value with each house that is erected. There are no "puts" or "calls." All the "margin" you "put up" is your little monthly payment. No "bucket shop" business, the water mains are close by. No one can steal them. They don't eat anything, and at the end of the year you find yourself in

Possession of Property Worth Two or Three Times what You Agreed to Pay for It

and you have not risked the principal. Yet a fellow had the colossal gall and the monumental cheek to offer us some "Cordage" the other day in trade for one of them. Of course we declined. We have just stated the reason. We have heard a disposition among certain parties to refuse Bank Notes in payment of claims; we wish it understood that all kinds of money in common use will be received for payment on Richmond Hill Lots.

Helping Out Delaware County Farmers

The Ulster and Delaware Railroad has posted notices in the stations along its line announcing that it will carry free of charge all the hay needed to help farmers' dairies through the season. The drought has been very severe in the section traversed by this road and many farmers feared that it would be necessary to reduce their herds and it is to prevent this that the railroad has taken this action.

Fierce Forest Fires in New Jersey.

POMONA, N. J., Aug. 15.—Fierce forest fires which have been raging since 8 o'clock Tuesday morning in this vicinity are doing much damage along the Brigantine Beach railroad. Already about 150 acres of woodland have been burned, and the flames are steadily gaining headway. The fire is rapidly extending towards Absecom. Forces of men have been trenching for thirty-six hours, trying to check the flames and prevent their reaching the dwelling houses, but with little success, and it is feared that nothing short of a heavy rain will save their homes. The origin of the fire is unknown, but it is thought to have been caused by huckleberry pickers.

Ex-Queen Marie May Become Blind.

BERLIN, Aug. 15.—A dispatch from Gmunden states that fears are entertained that ex-Queen Marie of Hanover, the mother of the Duke of Cumberland, will become totally blind. Spots are forming on her right eye, and it is feared they will extend to the left eye. The ex-queen is very popular, and her danger excites much sympathy. Her husband, the ex-King George V of Hanover, was blind for many years before his death.

DENVER, Colo., Aug. 15.—Edwin J. Johnson, a railway postal clerk running between Denver and Glenwood Springs, Colo., committed suicide by swallowing carbolic acid. It is supposed he became aware of this fact, and killed himself on account of it.

HELD ON A CHARGE OF MURDER.

Evidence Connecting Mrs. Howell with the Death of Miss Knapp.

WELLSBORO, Pa., Aug. 15.—The examination of Mrs. Charlotte Howell, charged with the poisoning of Miss Libby Knapp, at Tioga, was concluded yesterday, Mrs. Howell being remanded to jail to await the action of the grand jury next month.

Dr. Niles, the coroner, testified to the finding of evidences of poison in Miss Knapp's stomach, and Dr. Brown, the attending physician before her death, told of similar symptoms when he was called in. Mrs. Stevens, a neighbor, testified to having let Mrs. Howell have "Rough on Rats" on three occasions, once on the plea that she wanted to kill a dog, another time to kill a cat, and on the last occasion she left the whole box with her because she had asked her to do so in consequence of a dream which she said made her fear that Mrs. Stevens would be poisoned by the stuff. Mrs. Howell placed the poison in a cupboard. Two or three days after Miss Knapp died Mrs. Stevens asked Mrs. Howell about the poison, and she replied that she had burned it up since "Libby" died, because she had been afraid to have it in the house.

The threatening and filthy letters received by Miss Knapp were offered in evidence, together with some copies of them made by Mrs. Howell to show that the pencil printing was done by the same hand as the originals. Evidence was also adduced to show that the statements made by Mrs. Howell about the death of the girl were not according to the facts. This evidence, as a whole, was considered sufficient to hold the woman to answer a charge of murder.

The man who got away was Edward Warren Ball, 25 years old. The one who did not escape is Samuel B. Ryli, of Philadelphia.

THE ARGUS.

C. MACARDELL, PUBLISHER.

GEORGE H. THOMPSON, C. MACARDELL, } EDITORS
T. F. ROBINSON, A. E. NICKINSON, } CITY EDITORS
C. MACARDELL, JR. - BUSINESS MANAGER

THURSDAY, AUGUST 15, 1895.

It is gossiped in political circles in New York city that the reorganization of Tammany Hall means that the organization will abandon Senator Hill as a Presidential candidate and cast its strength for Mr. Whitney.

The papers of England and Scotland publish most lugubrious accounts of crop conditions and prospects. Wheat and oats are at least twenty-five per cent below the average. The hay crop is only half the yield of good years and of the root crops, potatoes alone make a fair showing. Heavy drafts will have to be made on this country to piece out the food supply.

The bond syndicate deposited $1,658,000 of gold with the Treasury, yesterday, and $1,150,000 was withdrawn for export. Just how long the syndicate will continue to protect the Treasury is not known, but even if the gold reserve should fall considerably below the $100,000,000 mark there would be no occasion for alarm, nor is it likely that another bond issue will be made in advance of the meeting of Congress.

The conference of free silver Democrats, which began in Washington, yesterday, is not much of a conference after all. The attendance is small and includes but few men of national reputation. Senator Turpie, of Indiana, who signed the call, is conspicuous by his absence. But few states are represented, the delegates present being from the South and the middle West, and many of them are permanent residents of Washington, who are accredited to the states in which they formerly lived. Nothing was done, yesterday, but to appoint committees, and the discussions that took place showed that the delegates had only the vaguest idea as to the objects of the the conference and no ideas at all as to the manner in which anything practical could be accomplished.

THE MAPES FAMILY PICNIC.

Ninth Annual Reunion at Midway Park To-day.

The ninth annual reunion of the Mapes Family Society was held at Midway Park, to-day. About two hundred were present, most of whom reside in this section of the country. Many drove to the park in wagons, but most of those present came to this city by rail or wagon and went to the park on the electric cars.

After general greetings and handshakings at the depot, the visitors made a tour of the park, taking in all the sights, and at noon the baskets were unpacked and family groups were seen here and there all about the grounds enjoying their dinners.

At 2 o'clock, this afternoon, the visitors assembled on the pavilion and held the annual business meeting which was opened with prayer by Rev. Luther Littell, of Mount Hope.

The rolls showed that death had cancelled three names since the last meeting, a small percentage it is true, but enough to make a void in three households that cannot be filled. The names of members who died were: Mrs. Emma, wife of Theodore Mapes; Stephen H., son of Oscar W. Mapes, and Mrs. Ella Mapes Holbert, all of whom passed away within a very short time.

The opening address was delivered by Mr. Nelson B. Mapes, of Howells. Brief addresses were made by Rev. W. H. Kershaw, of Hancock, and others.

The old officers were re-elected.

THE A. O. H. PICNIC.

A Large Attendance, as Usual, and a Most Decided Success.

The annual picnic of Middletown Division, A. O. H., was held at Maennerchor Park, yesterday afternoon and evening. As is usual at these annual gatherings, the attendance was very large and every body had a good time.

The dancing floor was occupied all the evening and until 2 o'clock, this morning.

Barnes' orchestra furnished music for dancing. The Traction Co. ran special cars up to 2 a. m. to accommodate the people at the picnic.

A Note From the Editor.

The editor of a leading paper writes: "If you had seen my wife last June and were to see her to-day you would not believe she was the same woman. Then she was broken down by nervous debility and suffered terribly from constipation and sick headache. Bacon's Celery King for the nerves made her a well woman in one month." John J. Chambers will give you a free sample package of this great herbal remedy. 4

Almost a Head to Head Collison in the Glen.

Car No. 1 and the big work car had a head to head collision in the glen, this afternoon. They met on a sharp curve and both motormen reversed at once and Motorman Sparks, of No. 1 jumped.

When within six feet of each other both stopped and car No. 1 began to run backwards at full speed, but Conductor Ed. Gould who was in charge ran forward and took charge of the motor. A bent trolley pole was the only damage.

A Cow Struck by Lightning Revives—Effects of the Stroke.

A cow belonging to P. A. Laster, of Glasco, Ulster county, was struck by lightning, Sunday afternoon. She laid for two hours as if dead, when she staggered to her feet. She was badly mauled by the lightning, one eye being knocked out, her head cut open, three long strips of skin torn from her side and her legs swollen to twice their natural size.

Dead Hog, Greased Track

The mail train on the Sussex road was delayed for fifteen minutes, the other day, by a greased track. A 200-pound hog which had got on the track was struck and killed near Andover, and its carcass was so badly mangled that the track and engine wheels were so thoroughly greased that it was some time before the train could make headway.

The Walden correspondent of the Newburgh *Journal* says a public test of the electric car fender and brake, invented by Mr. Stemler, of Walden, will be made on North street, in this city, on August 19th, at 2 p. m., when representatives of leading electric companies will be present.

THE BOOM IN IRON.

From the Scranton Times.

Between four and five thousand furnace men had their wages increased ten and fifteen cents on Saturday—the third advance they have received in the past three months. With American iron winning a market on its merits in Europe and Asia, to say nothing of the vast market which has opened at home, it is no wonder that skilled labor is commanding a premium, or that prosperity is making all the furnaces fairly roar.

A HUMAN ALBUM.

Autographs Written on This Man Remain Embossed For Hours.

A singular medical freak was exhibited before the Cleveland Medical society this evening. Dr. A. C. Aldrich presented the case. The subject, whose name is Brokaw, and who works in a steel mill, is 24 years of age and finely developed physically. He went to Dr. Aldrich a few days ago to have his lungs examined, and as the physician tapped and hammered on his brawny chest he presently noticed that little elevations and ridges were appearing everywhere he struck.

Amazement succeeded interest as the doctor discovered in a few minutes that the man's whole breast was swollen and angry looking. He was informed that that condition had long existed, and that the effects of irritating the skin in like manner lasted sometimes for hours. When the patient was placed on exhibition before the society, a letter which had been impressed upon his arm during the afternoon was still visible.

Some of the physicians experimented with match sticks until the man's back was a veritable autograph album in embossed letters. Brokaw said he was in perfect health, and that this peculiar sensitiveness caused him no trouble, the only sensation being that of a slight burning.

Letters and words written upon him during the time the society was in session appeared with distinctness when he retired from the room.—New York Recorder.

Tired women need to have their blood purified and enriched by Hood's Sarsaparilla. It will give them strength and health. 11

Diarrhœa should be stopped promptly. It soon becomes chronic. DeWitt's Colic & Cholera Cure is effective, safe and certain. Hundreds of testimonials bear witness to the virtue of this great medicine. It can always be depended upon; its use saves time and money. W. D. Olney.

Your Ice Cream—is its flavoring pure?

Of all flavors PURE Vanilla is best suited for a cultured palate or a delicate stomach.

If you buy Vanilla Ice Cream insist upon PURE Vanilla. We are large manufacturers of this Extract, and we want everyone to know a pure vanilla flavor when he tastes it.

When you drink our Vanilla Ice Cream Soda Water, notice the delicacy yet clearness of the flavor. THAT'S PURE Vanilla of the highest type. Then when you drink it elsewhere, notice the difference. If different, it's adulterated. Some ice cream makers, from a mistaken idea of economy, use adulterated Extract Vanilla.

We offer pure Extract Vanilla at a fair price to everyone—the quantity required (a small teaspoonful to a quart of ice cream—no more) makes it true economy to use our Premium Extract Vanilla. What do you use? What does your ice cream maker use?

THE CONDUCTORS' CLAMBAKE.

A Grand Success as Anticipated—A Great Crowd, a Great Bake and the Finest of Weather

The O. and W. conductors were never more highly favored with good weather for their annual clambake than to-day. It was bright and warm, but not too warm; just such a day as would invite people into the open air and with that invigorating atmosphere that induces a good appetite. Hence with the popularity of these annual outings it is not surprising that all who could spare the time and afford the expense decided to go with the conductors and eat clams and the good things that accompany them on such occasions.

The 24th Separate Company band had been engaged and at an early hour marched through the streets and to the Wickham avenue depot.

A special train in charge of Conductor Close started from the Main street depot where a large number of passengers boarded it, and when it left Wickham avenue there were nine coaches quite well filled. Another coach was taken on at Summitville, and when the train reached the Manor there were 850 on board.

The special train from Sidney brought down 250 and others came on the regular trains during the day.

The second special in charge of Conductor Cook left this city at 10 o'clock with seven coaches and about 200 passengers, and others were taken on at nearly every station so that the number was increased to about 400 when the train arrived. A number of people went up on the 10:40 a. m. regular train and quite a number will go on No. 7 at 6 o'clock to take in the evening bake.

The total number of railway tickets sold last year was 1,358 and this will doubtless be exceeded by several hundred this year.

At 1 p. m. the railroad had landed 1610 passengers at the Manor and with three trains to come from the north and another from the south it was expected about 1 800 people would be carried by the road.

Of course there was the usual crowd from the surrounding country and probably in all 3,000 people were on the grounds.

The first bake was served at 11:30 a. m. The food was of the best and was well cooked and well served, the conductors personally looking after the welfare of their guests. Another bake will be ready about 5:30.

W. F. Baily was appointed referee of the athletic sports which began at 1 p. m.

THREE MEN DROWNED

By the Capsizing of a Boat on Highland Lake, Sullivan County

The Port Jervis *Gazette* has received information of the drowning of three men on Highland Lake, near Eldred, Sullivan county, Monday night. The locality being far from railroads and the telegraph accounts for length of time for the news to reach the public.

Five men went rowing on the lake after supper, among them being William Faeterow, brother of the proprietor of De Venoge Mountain House, Wm. Pilgrim, the chef of the hotel, James Hendricks, the assistant cook, and two others whose names have not been learned.

The boat was upset and all thrown into the water. Two of the men swam ashore, but the others, Messrs. Faeterow, Pilgrim and Hendricks sank and were drowned in water about 100 feet deep.

HIS SKULL FRACTURED.

A Singular and Probably Fatal Accident at the Otisville Crusher.

Jehial Garrison, an Erie galvanizer, employed at the stone crusher at Otisville, met with a singular and probably fatal accident, Tuesday afternoon.

A heavy plank was used in pushing a car on one track by means of an engine on another track, one end of the plank being against the rear of the car and the other against the engine. Garrison was standing near the plank giving signals when the timber broke, one heavy piece striking him on the head. His chin was badly lacerated. It is believed there is a fracture at the base of the brain and he is suffering from concussion. He was taken to the Port Jervis Hospital.

THE MAIDEN AND THE BIKE.

Lovely maiden,
Pretty wheel,
'Nough to make one's senses reel;
Swiftly gliding
Through the park,
Where the lads and lasses spark.

Man approaching—
'Nother wheel—
Maiden fear begins to feel;
Tried to dodge him,
All in vain,
Rushes on as if insane.

Then together
Wheel and wheel
Crash with shock that wrenches steel!
Man takes header,
Maid a flop,
Both together take a drop.

"Beg your pardon,"
Says the man
With what heart and grace he can.
"Clumsy creature,"
Shrieks the maid
With a look like lemonade.

Then uprising
Full of ire,
And her glances flashing fire,
Wrathful maiden,
Deadly wheel,
Forth to other conquests steal.

A CAPTURE.

Billy Sims was enjoying that period of rest and peace which comes to a man when his wife and family go to the seaside and leave him in possession of the house. Then a person can stay out as late as he likes. He may smoke in any room in the house. He may even go to bed with his boots on if it so pleases him.

Billy had expected to stay at the sea for a couple of weeks, but a telegram had recalled him to town after being a day or two away, and he came joyfully back, for the sea bored him, and there was nothing lively going on at the resort his family had chosen. Before he left town Billy had told the police of his suburb that the house would be closed for a fortnight, and he asked them to keep an eye on the premises. Billy's faith in the force was somewhat shaken when he unexpectedly returned, found he had left his latchkey at Marineville and was thus compelled to climb in at a window after midnight, yet no notice was taken of him. He got out in the same way next morning and telegraphed for his keys. He roamed all over the house with a lighted candle at various periods of the night, but the guardians of the peace never disturbed him, and Billy made up his mind that the next time he went away he would take out a burglar insurance and not trouble the guardians who guarded so carelessly.

On Saturday afternoon Billy, having a day off, took a day on, as it were, and went for a long spin through the country on his bicycle. He had dinner at a wayside inn and got home late and tired. Putting his machine in its shed, he entered the house, poured out for himself a glass of cooling stimulants, and rested his weary body in his most comfortable armchair, sipping the gratifying mixture in accordance with the directions on the bottle.

The house was very quiet, and soon Billy dropped off to sleep. He woke up suddenly and found everything still very quiet and very dark as well, yet he had the feeling within him that he had been awakened by a noise. He listened intently, sitting still in the comfortable chair, and presently the chandelier above his head gave a slight rattle, as it was in the habit of doing when some one was walking in the room overhead. Billy did not believe in ghosts, for he was a newspaper man and could hardly be said to believe in anything. Again the chandelier jingled, yet there was no noise of a footstep overhead, and it dawned upon Billy's scarcely awakened faculties that whoever was above him was going around in his stocking feet, trying to be as silent as possible. Billy regretted that he did not own such a thing as a revolver, for he felt convinced that at last burglars were in the house. He vaguely saw himself writing an account of the incident, headed: "Desperate Encounter With a Burglar Heroic Conduct of a Suburban Householder."

Fired by this thought, and in spite of the distinct creeping of his scalp which we exaggerate into terming the sensation of the hair standing on end, Billy grasped the poker that lay on the fender by his chair and cautiously crept out into the hall, making his way like a cat up the stair, fervently hoping that no step would creak.

At the landing above Billy peered into the bedroom from which the light issued and was appalled to see, not one burglar, but three. This exceeded Billy's most ardent expectations. He had been prepared for a desperate encounter with one, especially if he could have crept in on him and lauded on his head with the poker before the burglar was aware that there was anybody else in the house, but a fight with three was too much of a good thing.

One of them would be certain to have a pistol, which would make things even more interesting. Glad as he would be to have an exclusive item for his paper, he had no desire to have some one else write it up and head it, "Dastardly Murder of a Reporter In Lonelyville." There are some sacrifices that a man does not care to make, even for his paper. Moderation in all things was Billy's motto.

The burglars had evidently come to the conclusion that there was no one in the house, for no guard was set. They moved about quietly, but that merely came from long practice in an arduous profession where there was much night work and little thanks from a callous public. Billy did not pause to think that these men had no Saturday night off, and that they were most industrious while other people were sound asleep. We generally think that our own particular occupation has the most drawbacks, giving little heed to the discomforts of others.

One man was holding a bag open and the other two were creeping about filling the receptacle with various articles prized by connoisseurs and collectors.

"I think we've got as much as we can carry," whispered the man who was holding the bag.

This remark caused Billy to reflect that if he was going to do anything in the matter it was time to set about it. So he emulated the conduct of the celebrated Duke of York, who marched men up the hill and straightway marched them down again. Billy crept down the stair with the unused poker still in his fist. He realized that if he went to the police station, which was some distance away, the burglars would be gone before help came.

Then the brilliant idea occurred to him that he might follow the thieves silently on his bicycle, mark their lair, come with an ample police force at his back and capture the whole outfit, thus earning the eternal gratitude of the entire neighborhood. Then the item would be headed, "Clever Capture of a Band of Burglars—The Silent Cycle Follows Them to Their Rendezvous."

Billy got his machine out from its shed, noiselessly unlocked the back gate, closed it again as silently as he had opened it and waited in the shadow of a tree across the way. In a very few moments the burglars came out, each carrying a bag. They peered up and down the deserted street, and then slipped out, walking rapidly away together. Billy had no difficulty in following them. His only trouble was the street lamps, which he avoided as well as he could by keeping on the opposite side of the road from them. He hoped he would meet a policeman, so that he might give the alarm, and his wish was gratified. The officer stepped unexpectedly out from beside a tree, and he grasped Billy by the arm.

"Why are you cycling out at this time of night without your lamp lit?"

"My lamp lit, you fool!" gasped Billy, taken by surprise, and therefore not having time to choose his language with the care a man should use when addressing so important a personage as a policeman. "How the —— could I chase burglars with a lit lamp?"

"That's all very fine," said the officer. "I've heard that kind of a story before. A man doesn't get up and dress himself in a full bicycling suit to chase burglars at 2 in the morning."

"But I slept in my bicycling suit, you ass!" protested Billy, feeling, as he said it, that it sounded rather thin and unbelievable in the keen morning air.

"I'll report the language you are using to the magistrate," said the policeman calmly, knowing the whole machinery of the law was with him.

"My house has been burglarized," cried Billy. "The three thieves passed you with their swag, and I don't suppose you ever saw them. Precious lot of good you idiots are, not only letting the rascals slip, but arresting a man who is robbed and who is trying to do the work you are paid for doing."

"Come and tell all this to the officer on duty at the station. You're bicycling without a lamp at night, and that's all I have to deal with, and I'm going to deal with it."

Billy broke into language that was both deplorable and indefensible, but the policeman merely noted it down and took the unfortunate man to the station. Billy speedily convinced the night man at the police station that a mistake had been made, and two of the force were sent to investigate. They reported that the house had been burglarized with neatness and dispatch, but the burgling birds had flown.

The magistrate told Billy next morning that if he had been more moderate in his talk his miscarriage of justice might not have happened. He should not use such language, the magistrate said, and when Billy asked what else he could have used, seeing that he had no club with him, the magistrate remarked that he would fine him for contempt of court if he tried his flippancy on the bench.

So the item appeared as "Burglary at Lonelyville," and another paragraph stated that Billy Sims, a well known journalist, had been fined for riding about the streets at 2 in the morning on a bicycle with an unlit lamp, and that Billy was supposed to have been intoxicated at the time, whereas the truth was that the magistrate let Billy off with the reprimand aforementioned.

As the police have not yet succeeded in capturing the thieves, although they are always coming on a new and gratifying clew, Billy thinks this is a hard world.—Luke Sharp in Detroit Free Press.

A Gentle Corrective

is what you need when your liver becomes inactive. It's what you get when you take Dr. Pierce's Pleasant Pellets: they're free from the violence and the griping that come with the ordinary pill. The best medical authorities agree that in regulating the bowels mild methods are preferable. For every derangement of the liver, stomach and bowels, these tiny, sugar coated pills are most *effective*. They go about their work in an easy and *natural* way, and their good *lasts*. **Once used, they are always in favor.** Being composed of the choicest, concentrated vegetable extracts, they cost much more than other pills found in the market, yet from forty to forty-four are put up in each sealed glass vial, as sold through druggists, at the price of the cheaper made pills.

"Pleasant Pellets" cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in sealed glass vials, therefore always fresh and reliable. Whether as a laxative, or in larger doses, as a gently acting but searching cathartic, these little "Pellets" are unequaled.

As a "dinner pill," to promote digestion, take one each day after dinner. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They are tiny, sugar-coated, anti-bilious granules. Any child readily takes them.

Accept no substitute that may be recommended to be "just as good." It may be *better for the dealer*, because of paying him a better profit, but *he* is not the one who *needs* help.

A free sample (4 to 7 doses) *on trial*, is mailed to any address, post-paid, on receipt of name and address on postal card.

How Dr. Miles' Nervine Restored One of Kentucky's Business Men to Health.

NO DISEASE has ever presented so many peculiarities as LaGrippe. No disease leaves its victims so debilitated, useless, sleepless, nerveless, as LaGrippe.

Mr. D. W. Hilton, state agent of the Mutual Life Insurance Co., of Kentucky, says: "In '89 and '90 I had two severe attacks of LaGrippe, the last one attacking my nervous system with such severity that my life was despaired of. I had not slept for more than two months except by the use of narcotics that stupefied me, but gave me no rest. I was only conscious of intense mental weakness, agonizing bodily pain and the fact that I was hourly growing weaker.

When in this condition, I commenced using Dr. Miles' Restorative Nervine. In two days I began to improve and in one month's time I was cured much to the surprise of all who knew of my condition. I have been in excellent health since and have recommended your remedies to many of my friends."

CASABIONANKA.

The girl sat on the baseball stand—
All but her heart had fled.
And he, poor chap, could not demand
Relief from what she said.
"Why does the pitcher throw it so?"
She murmured in dismay.
"Such actions violent, you know,
His awkward moves display.
Why does he so expectorate
Upon the snow white ball?
Was he not taught until too late
That that's not nice at all?
Why does that fellowdon a cage
And let his voice resound
In cries of 'Strike!' awak'ning rage
In those upon the ground?
Why do the runners always fall
And slide upon their face,
Or else—they do not care at all—
Upon some other place?
Why do the people murmur 'Rank?'
He has no rank, 'tis plain.
Why does that player, lean and lank,
Seem in such awful pain?
Why does the catcher wear that pad
Close to his bosom pressed?
And why has not the other had
His clothes cut like the rest?
Why does that player swing the wood
In such a reckless way
And question, as no good man should,
What those behind him say?
Why do the men such colors wear"—
But here she turned her head,
And then at last became aware
Her escort had dropped dead.
—Nebraska State Journal.

Hypnotized.

"Now, Wally," said Edgar, with a friendly smile, "I just want to make an experiment. If you offer no resistance, I think I can hypnotize you. What you have to do is to maintain a passive mental attitude. Try to think of nothing whatever—no, not even of me. Come, try to be serious. There, lean back and make yourself comfortable. So; that will do. Now turn your eye to this light and don't forget that your mind is to be kept entirely inactive. I will count 60 seconds by my watch."

The young lady scrupulously obeyed these instructions. In 20 seconds her eyes twinkled; after 40 they closed completely.

"Ah! I knew I should do the trick!" Edgar triumphantly exclaimed. "Now, Wally, I command you to reveal to me the secrets of your heart. Whom do you love? Tell me, I say!"

An expression of reluctance flitted for a moment over the maiden's face; then she began in a monotonous drawl:

"I love Edgar P.. and"—

"Yes! Yes!" exclaimed the enraptured Edgar. "Go on. Tell me all the secrets of your heart!"

"I love Edgar P.," she went on in the same tone, "and I would love him still more were he not so stingy. I should like to go to the theater twice a week, but he only takes me there once in three months. I wanted diamond rings, and he gives me rings with cheap stones. I should like to have gone for a drive once or twice a week, but he never invites me. When I walk out with him and feel hungry, he never thinks of treating me to oysters. When I"—

"Enough!" the young man cried. "Wake up! I command you!"

And so saying he made a rapid exit, without awaiting the result of his command.—Das Neue Blatt.

Complimented.

The Prince de Joinville tells in his "Memoirs" a story that is rather hard on the Americans he found during his visit to this country in war times: "One of the chief members of society at the time was the British minister, Mr. Fox, a diplomatist of the old school. I was told that one day as he was leaning against a chimney-piece in a drawing room, where dancing was going on, in deep conversation, an American came and stood just in front of him in a country dance. Soon the young man began to show signs of anxiety; his voice grew thick, his cheeks swelled alternately, and he cast anxious glances at the chimney-piece. At last he could hold on no longer, and with the most admirable precision he shot all the juice of his quid into the fireplace just between Mr. Fox and his interlocutor. 'Fine shot, sir,' the old diplomat contented himself with saying, with a bow."—Argonaut.

THE CITY OF MIDDLETOWN.

Its Business Conditions and Prospects Reviewed by a Staff Correspondent of the United States Investor—Activity in Real Estate—Advantages as a Place of Business and Residence.

The *United States Investor*, a recognized authority in banking and financial circles, which is published simultaneously in Boston, New York and Chicago, printed in its issue of Aug. 10th, the following very appreciative and flattering article concerning Middletown, its industries and its advantages as a place of residence and business, from the pen of a staff correspondent, who visited this city:

With an elevation above tide water of 550 feet, midway between the Delaware and the Hudson rivers, this prosperous and growing city is beautifully located, in one of the most fertile counties of the Empire State, at a distance from New York city of sixty-seven miles. Its growth has been even, though half of its population of nearly 15,000 has been gained within ten years. No better proof of its prosperity can be offered than the fact that the local banks cannot supply the demand for money for the prosecution of its legitimate business activities. One banker told the *Investor* representative that he could loan an additional $50,000 within a week. And this, notwithstanding the fact that there are here two national banks, a private bank, a trust company and a savings bank, with mortgage loans of nearly half a million.

The industries which create, directly or indirectly so great a demand for money, are the plant of the New York, Ontario & Western Railroad, which covers 30 acres, the monthly pay roll of which in the city is $60,000; iron, boiler, saw, tile and wood type works; leather, glass, hat, shirt and condensed milk factories; silk, dye and print mills, besides numerous manufactories of minor importance.

In common with most communities, Middletown felt the stress of panic times, the effect of which was the closing of several of its factories. Nearly all are now running, the rest about to commence operations, with the beneficent result of hopeful anticipation on the part of all whom they will benefit. These indications of recurring "good times" must account for the remarkable extensions in the way of building and opening of new streets. One real estate dealer opened on January 1 a tract of 320 lots within ten minutes' walk of the centre of the town. Within a month he had sold 101 lots, and there have been built or are in progress of construction twenty-seven houses at an aggregate outlay of $52,000. Another dealer has recently sold, under contract to erect houses thereon, twenty-two lots in another section of the city. Lots are being offered at attractive figures on easy terms, and are being taken rapidly. As a place of residence the city excels. Two very large squares occupy a central location, which with their monument, fountain and horticulture, might well be covered by much larger cities. A beautiful park is the grounds of the State Homeopathic Hospital, which is itself no inconsiderable factor in the employment of labor and disbursement of wages. The principal business street is paved partly with asphalt and partly with vitrified brick, and is kept scrupulously clean. Indeed, cleanliness and a good moral tone mark the whole community.

An admirable water supply, well trained fire and police departments are among the advantages of which but few can be given in our limited space. One condition exists which some will consider a drawback, but which should be mentioned to make this a fair sketch of the city. That is the large indebtedness incurred by its response to the demands for money for railroad purposes. While it is amply able to handle its bonds, it is hindered in its improvements because bonded to its lawful limit. Legislature passed a law permitting the erection of a city hall, but the work is deterred for the reason stated. A probable change in the basis of valuation and assessment will improve this situation, and allow improvements commensurate with the growth and enterprise of the city. Transportation facilities are excellent. The competing lines of the Ontario & Western and the Erie give efficient passenger and freight service between the city and the metropolis, as also between the city and the West. A line of local importance has its terminus here. Electric light and power are in use; the street car system runs in every direction through the city, and connects it with the village of Goshen, the county seat.

To a vigilant board of trade, composed of representative business men, belongs much of the credit for developing the industries and for creating the aggressive spirit which marks the movements of trade.

A Result of Free Wool.

Since March 20th, the Newburgh Woolen Mills, Messrs. Foster & Taylor, proprietors, have sold over 36,000 lap robes, the average production at the present time being 260 daily. Their deliveries represent $800 worth of goods each.—*Newburgh Journal*

One of the beneficent effects of Democratic free wool, neighbor. Why don't you say so?

A Very Healthy Town.

The last twelve deaths recorded in the town of Hamden, Delaware county, show an average age of eighty-one years. The people of that locality are naturally claiming that it is the healthiest town in the State.

Successful operations by surgeons are reported and published to the surgeon's credit, and it is also a benefit to the public to know of his skill. In this way Drs. Jones and Potter and their ability to cure rupture have become familiar to the public. Russell House, Thursdays. 5

BABIES IN AUGUST

Anxious Mothers Dread the Hot Summer Days.

Everything Depends Upon the Diet on which They are Fed.

Lactated Food Best Supplies the Materials for Healthy Growth

Not only the physicians, but thousands of modest parents who have seen their children safely through the trying years of babyhood and youth now know that there is no rational excuse for cholera infantum entering any intelligent home in the land.

Every case of diarrhœa that terminates disastrously must be set down to culpable inattention to baby's great need of pure, nourishing food.

MARGUERITE HILANDS.

The painful question that will soon be wringing parents' hearts—"Will baby get through the summer?"—must be squarely faced.

The fearful number of infant deaths every summer from cholera infantum is due to the ignorance of well-meaning mothers.

Improper food is now known to be the cause of nine-tenths of all the frightful infant mortality of August.

Mother's milk, when healthy and sufficient, is the ideal infant food; but when in the first year of the baby's life recourse must be had to another food, or when the time comes for weaning the child, lactated food by all manner of means should promptly be given in preference to anything else. It has saved the lives of thousands of babies.

Mothers and nurses who have used lactated food all agree that it best supplies the materials for baby's rapid growth and development. Lactated food is prepared with a regard to purity, cleanliness, and freedom from possibility of contagion that merits all the praise that has been so lavishly bestowed upon it by physicians.

The nutritious parts of barley, wheat and oats are so prepared as to be easily assimilated; to these are added sugar of milk and the salts which are the basis of mother's milk. The constituents are thoroughly cooked at high steam heat, and make a predigested, palatable, nutritious food, a perfect substitute for mother's milk, fit for meeting every demand of the rapidly growing child.

Lactated food has tided thousands of babies through the sickly hot days. It should be in the hands of every parent.

Mrs. Edward Hilands of Franklin, Pa., whose beautiful baby is shown above, says:

"Our baby was very delicate, but now is one of the healthiest children in the state. If it had not been for lactated food I know she would not be alive to-day, for before she commenced its use she was skin and bones. I tried ——'s food, and I don't know how many others, and they seemed to do more harm than good. She is two years old now and is still living on lactated food, and will be for two years to come, for it keeps her in perfect health, and that is what I want."

Lizzie Halliday Sane Again.

"Mrs. Halliday, who killed three persons at her abattoir, near Middletown," is the way in which a New York newspaper refers to the triple murderess, now confined in the Matteawan Hospital for the Criminal Insane. It is rumored that she is sane again and will soon be transferred to the prison for women at Auburn.

Nervous debility is a common complaint, especially among women. The best medical treatment for this disorder is a persistent course of Ayer's Sarsaparilla to cleanse and invigorate the blood. This being accomplished, nature will do the rest.

"A VERY DEN OF THE DEVIL."

A Newburgh Clergymen's Estimate of the Electric Road's Effect on Walden—Newburgh's Corrupt Municipal Government.

Rev. R. H. Beattie, of Newburgh, a brother of Rev. Dr. Charles Beattie, of this city, in a sermon, Sunday evening, denounced in vigorous terms the electric railway and incidentally Sunday desecration and corrupt municipal government. Of the village of Walden, as a result of the building of the electric road, he said:

That place has been a very den of the devil on Sunday since the trolley was let in. Drunkenness, crowds, profanity and obscenity have simply flooded in disgusting streams along the village streets.

The reverend gentleman, without considering that Boss Odell may have willed otherwise, said:

I am no prophet, but let me say to you that I believe that there is a battle coming along the line of Sabbath legislation and Sabbath desecration; I believe it is time for such a battle in Newburgh. I believe the Recorder's court should be cleaned up a little on Monday morning. It is time that the saloons were closed. It is time you see a city government depended upon to enforce the law. Perhaps I may be mistaken, but I venture to think so. * * * * Newburgh needs the gospel. It has enough churches and enough preaching. It needs to be clean; it needs the inflowing and the outflowing of the divine love that shall sweep away down these hillsides the iniquity and the filth that fouls it.

A TEN INNING GAME.

The Columbias Defeat the Port Jervis Club in a Very Close Game.

The game between the Columbias, of this city, and the Port Jervis club, played on the grounds of the latter, yesterday, proved a very close and exciting contest, ten innings being necessary to decide it. The Port Jervis club started with a rush and at the end of the fourth inning the score was 9 to 1 in their favor. Then the Columbias, who had got on to the delivery of the Port Jervis pitcher, began to knock out runs and the Port Jervis fielders went to pieces, Cannon, the short stop, making no less than seven errors.

In the seventh inning, House, the Columbias' pitcher, gave out and Collomore was substituted.

"A Midnight Frolic"

The above title seemed to arouse the curiosity of the New York public, so much so that on the opening night the house was packed to the doors. The success of the play was instantaneous, and during the entire New York engagement the theatre was crowded. The play is an unqualified success; the company a powerful and evenly balanced one, and Miss Lillian Kennedy as the heroine, presents a characterization which for histrionic ability has never been surpassed on the American stage.

Walter Tomhell, of Kingston, met a friend named William Smith, Monday, and in the exuberance of his joy at seeing him whacked him soundly on the back. Smith did not like this style of greeting and caused Tomhell's arrest on a charge of assault in the third degree. Tomhell acknowledged whacking his friend and was fined $10.
